

# **IMPORTANT INFORMATION: POSTPONED**

## **7th Working Group Meeting of the Platform for coal regions in transition**

The European Commission regrets to inform that the 7th Working Group of the Platform for Coal Regions in Transition, originally foreseen on April 1 and 2 in Brussels, has been postponed until further notice.

The decision has been taken in light of the last developments on the spread of the corona virus (COVID-19) and following the precautionary measures and the instructions issued by several national authorities concerning travelling across Europe and participating in events. Whilst the workings of the Platform and the cooperation between all the stakeholders involved are at the core of the EU policy making, safeguarding public health and following the instructions from the public health authorities have for now the priority.

We very much regret this unfortunate situation and appreciate your understanding for the decision taken to ensure the health and safety of all participants.

The Secretariat of the Platform and the European Commission are working on rescheduling the event as soon as the situation will allow it.

Every future development concerning the Working Group Meetings of the Platform will be promptly communicated via email and on the website of the Platform.
