

## IRELAND

Date of data collection or reference period	Weekly average consumer prices on Monday.
Reporting Body	Department of Environment, Climate and Communications
Reporting price discount on motor fuels	Prices provided are the retail pump prices displayed at the fuel service stations and include all taxes.
Market coverage and data sources	<p>Un95 &amp; Diesel: data is national average retail weekly price supplied by one oil company.</p> <p>Home Heating Oil/Gas Oil: A large number of Irish home heating oil is kerosene rather than gas oil. The price reflects the kerosene home heating oil price from a consumer website called <a href="http://www.cheapestoil.ie">www.cheapestoil.ie</a> that covers the whole of Ireland. The difference between list prices for kerosene and gasoil, provided on a voluntary basis by 2 large oil companies, is added to the kerosene price on <a href="http://www.cheapestoil.ie">www.cheapestoil.ie</a> to determine average home heating oil price in Ireland.</p> <p>Heavy Fuel Oil (HFO): Price data is average retail price per litre converted to tonnes exclusive of VAT and inclusive of indirect taxes.</p>
Price averages	Arithmetic average. Prices on a national basis.
Biofuels	<p>Since 1 July 2010, the Biofuel Obligation Scheme (BOS) has been in place. Under the scheme, road transport fuel suppliers are compelled to use a proportion of biofuel in their overall fuel mix. As of 1 January 2022, the obligation is set at 14.942% by volume. Oil companies meet this obligation in a variety of ways and the blending mix for each product may differ between different companies and may vary on a weekly basis.</p> <p>Excise is paid on biofuels. However, a separate carbon tax is paid by suppliers on the fossil fuel portion of a blend, but not on the biofuel portion. The effective size of the tax is not recalculated to reflect the share of biofuels.</p>
Other indirect taxes included in prices reported	<p>Strategic Stockholding Levy: 1 Euro/1000L.</p> <p>Carbon Tax: €112.23/1000L (Petrol) and €129.81/1000L (Diesel), €111.14/1000L (Gasoil), €126.34/1000L (HFO).</p> <p>Non-carbon Tax: €371.11/1000L (Petrol), €295.64/1000L (Diesel), €0/1000L (Gasoil), €14.78/1000L (HFO).</p>
Other specific remarks by national administrations	The bulk of home heating oil consumed in Ireland is Kerosene, so this is reflected in the home heating oil price provided.
